

## Instruction to get Documentation on the Generic JAVA Learning Classifier Library

For documentation of the concept behind the library please refer to:

Meyer, Matthias and Hufschlag, Klaus (2006). 'A Generic Approach to an Object-Oriented Learning Classifier System Library'. *Journal of Artificial Societies and Social Simulation* 9(3)9  
<http://jasss.soc.surrey.ac.uk/9/3/9.html>

The Java Library itself uses JAVADOC for documentation, so help for all classes is available in supporting IDEs, as e.g. in Eclipse.
