Attitude dynamics model InnoMind (for Innovation Diffusion by Changing Minds)

Installing, compiling and starting simulation

1. Download and unzip the code

2. Change in the code (line: 1852) the path to the corresponding folder of your data input file (e.g., /InnoMind/Input/Demodata.txt)

3. Change in the code (line: 1909) the path to the corresponding folder of your media agent file (e.g., /InnoMind/Input/DemoMediaAgent.txt)

- 4. Go into the InnoMind/java folder
- **5**. Compile the code

\$ javac - d . HOTCOInnoSimV15.java

6. Start the simulation

\$ java HOTCOInnoSimV15J/HOTCOInnoSimV15
