

## **Attitude dynamics model InnoMind** (for **Innovation** Diffusion by Changing Minds)

### **Installing, compiling and starting simulation**

- 1.** Download and unzip the code
- 2.** Change in the code (line: 1852) the path to the corresponding folder of your data input file (e.g., /InnoMind/Input/Demodata.txt)
- 3.** Change in the code (line: 1909) the path to the corresponding folder of your media agent file (e.g., /InnoMind/Input/DemoMediaAgent.txt)
- 4.** Go into the InnoMind/java folder
- 5.** Compile the code

```
$ javac -d . HOTCOInnoSimV15.java
```

- 6.** Start the simulation

```
$ java HOTCOInnoSimV15J/HOTCOInnoSimV15
```
